

Capability Statement

Jaimie Samuels Sr. CEO
Jaimie.Samuels@Hummingbirdtechnologies.net
917.374.8721

Core Competencies

Specializing in robust cybersecurity solutions, Hummingbird Technologies employs industry best practices to safeguard digital assets and sensitive information.

- **Cyber Security:** At every stage, HBT analysis and incorporates solutions to protect IT enterprise.
- **Incident Management:** Leverages a proactive approach at identifying and resolving IT incidents swiftly to minimize disruptions.
- **System and Storage Administration:** Ensures optimal performance on server/cloud infrastructure reliability, security of IT systems and data storage.
- **Helpdesk Services:** Hummingbird Technologies provides efficient and responsive helpdesk support, addressing user concerns and technical issues promptly.

Differentiators

- Currently posses TS/SCI Clearance, Counter Intelligence (CI) polygraph and worked in Special Access Program (SAP)
- Commitment to ensuring the confidentiality, integrity, and availability at all network classification levels
- Able to meet all DoDM 8140 certification requirements
- 16 years of extensive experience in the field of Information Technology

Past Performance

W2 – Defense Treat Reduction Agency (DTRA) (01/2022 to Present). Cyber Security Engineer on a federal contract that conducts security assessments to multiple Departments/Agencies to ensure confidentiality, integrity and availability of the systems, networks, and data. Develop, review, and manage RMF accredited packages for the assigned IT boundaries.

W2 – Department of the Air Force AFLCMC/XA (02/2021 to 05/2022). Air Force Life Cycle Management Center (AFLCMC). Supporting both Architecture and Integration (XA) and Simulation and Analysis Facility (SIMAF) Directorates. Develops directives to implement DoD and AF policy actions related to computer security. Directs IA activities of network security programs and serves on DoD and AF functional working groups. Serves as a Command expert on interagency and DoD committees, conferences, workshops, and in meetings. Supported the F-22 and F-35 Programs. Serves as the SAP IT focal point for CIO Compliance.

W2 – Incident Manager (07/2017 to 08/2019). Identify emerging incidents and ensuring their prompt resolution. Primarily focus on coordinating responses between technical teams during a service disruption in order to address and solve service failures as quickly and effectively as possible. Maintain and support EUCOM & SOCOM, NIPRNet/SIPRNet Systems. Support all Special Operation Command Europe (SOCEUR) members. Reporting and analyzing incidents and change requests statistics. Ensure the implementation and enforcement of security procedures.

Company Data

Hummingbird Technologies, LLC (HBT) offers comprehensive analysis and evaluation of system security across all operational levels. Our team is adept at assessing current system operations and identifying vulnerabilities, enabling us to recommend tailored solutions that enhance system security. We ensure that our strategies align with the Department of Defense's Risk Management Framework (RMF) requirements, facilitating the maintenance and renewal of a system's Authority to Operate (ATO) certification. By leveraging our expertise, organizations can achieve robust security postures that not only comply with regulatory standards but also safeguard critical assets against emerging threats.
